GRUVER JACOB

JUNIOR SOFTWARE
DEVELOPER

PROFILE

I am a junior Software Developer who is excited to create applications that are pleasing to the eye and are functionally outstanding to users. I've engineered several applications on both front end and back end programming that involve some industry standards and I am willing to expand my portfolio with new programming techniques.

EXPERIENCE

WORKED A WHILE AT BOISE CODEWORKS AS A STUDENT

- Being educated in Front End & Back End programming at Codeworks
- Been taught Scrum methodology and completed tasks in a Scrum Environment
- Worked with teams of fellow developers to make applications

ELECTRONICS TECHNICIAN AT COLLEGE OF WESTERN IDAHO

- Studied C++ programming for microprocessors & programming Fanuc robots.
- Implemented C++ in prototyping devices with Arduino boards.
